31. List one thing the Lewis & Clark expedition DID accomplish and one thing it DID NOT accomplish.

They reached the Pacific Ocean.

They didn't convince the Indians to join the USA.

32. Explain why New Orleans was such an important port for settlers west of the Appalachian mountains.

The Mississippi ran through New Orleans so all trade from beyond the Appalachian mountains was controlled from there.

33. Tell what important item the Indians obtained from the Spanish? Tell how it changed their lifestyle

Horses

(2)

Guns made the Indians more warlike and made them fight more battles.

34. Explain Alexander Hamilton's argument that the National Bank *was allowed* by the Constitution. (b) Tell what his opponents said to contradict this argument.

The bank was a necessary to run the country and so was allowed by the Constitution.

The bank was helpful but not necessary and so was illegal.

35. Were Thomas Jefferson and James Madison strict or loose constructionists? (b) Was John Marshall a loose or strict constructionist?

Jefferson and Madison were strict constructionists.

Marshall was a loose constructionist.

36. Explain why steamboats made transportation so much faster.

Steamboats could go upstream as fast as downstream.

37. Did the Industrial Revolution make the common person's life better or worse in the USA. Explain why.

Better as they slowly became richer and many items became cheaper.

38. Explain what Calhoun's *nullification* theory said (a) the United States was (b) people in each state could do. (c) What was Daniel Webster's counterargument?

Calhoun's nullification theory said the United States was just some allied states and they could over rule federal laws they thought were too powerful.

Webster said that the USA was made by the people not the states.
